Confirmed Executive Summary of the Meeting of the Committee of Affiliates, Associates and Members held on Wednesday 21 November 2007

The Committee discussed the proposed changes to the governance of the Faculty and committee structure. It was noted that the Committee would not exist in its current following the changes but welcomed the need to reform the Faculty's governance structure.

The Committee reviewed and discussed the draft HMT trainee questionnaire. The Committee suggested further amendments and it was agreed a final draft should be circulated to group by 30 November.

The Committee discussed terms of the Outstanding Contribution Award for Affiliates, Associates and Members of the Faculty of Pharmaceutical Medicine and to submit those changes to the Faculty's Board for approval.

There was a general view that the eligibility requirement "Entrants must have played a significant role in the project" should be expanded because most projects were collaborative so the contribution of the team should also be recognised or an acknowledgment by the winner that they accept the award on behalf of the project team.

The Committee's next meeting will be on Thursday 21 February 2008.
