By completing and signing this application for membership of the Faculty of Pharmaceutical Medicine you are giving your consent for your data to be stored and used by the Faculty. All data will be treated with the strictest confidence and will only be used for legitimate Faculty purposes. Our full data protection statement is available on the Faculty website.			
Please note that becoming a member of the Faculty may create a prescribed connection for revalidation now or in the future, please contact the Faculty for advice.			

ELIGIBILITY REQUIREMENTS

(Please read carefully)

Holders of Diploma in Pharmaceutical Medicine awarded by Faculty of Pharmaceutical Medicine

The criteria are as follows:

1. medical qualification listed in WHO Directory;
2. registration with the GMC in the UK or registered in the country in which the qualification was granted or where currently working;
3. indicative period of four years post qualification clinical experience as follows:

Completion of the Foundation Programme (F1 and F2 - 24 months) and evidence of achievement of Foundation competencies (or documentary evidence of equivalent competence) including:

- Good clinical care
- Maintaining good medical practice
- Relationships with patients and communication
- Working with colleagues
- Teaching and training
- Professional behaviour and probity
- Acute clinical care (in line with GMC standards / Good Medical Practice

and at least 24 months clinical experience (not including Foundation modules) in UK based approved training posts or equivalent. Evidence of achievement of the relevant competencies would need to be demonstrated. Evidence would be from appraisal, satisfactory review (e.g. RITA-C), reports, outcomes (e.g. Level 1 competencies in medical specialties) or equivalent record of satisfactory attainment of competencies.

Medical graduates who qualified before 2005

Doctors who qualified before 2005 and received provisional registration with the General Medical Council before 1st August 2005 will need to demonstrate successful completion of the following clinical training requirements or demonstrate equivalence to them:

- One (1) year as Pre-Registration House Officer (PRHO)
 - Two (2) years post-registration experience of General Professional Training in approved training posts at Senior House Officer (SHO) level, which would normally involve direct patient care and experience of prescribing and monitoring the effects of drugs. Approved training in a range of specialties is highly recommended but is not required.
4. minimum of two years experience in a pharmaceutical medical role.
 5. pass in the Diploma in Pharmaceutical Medicine, awarded by the Faculty of Pharmaceutical Medicine

Holders of Diploma in Pharmaceutical Medicine awarded by Free University, Brussels

The criteria are as follows:

1. medical qualification listed in WHO Directory;
2. registration with the GMC in the UK or registered in the country in which the qualification was granted or where currently employed;
3. indicative period of four years post qualification clinical experience as follows:

Completion of the Foundation Programme (F1 and F2 - 24 months) and evidence of achievement of Foundation competencies (or documentary evidence of equivalent competence) including:

- Good clinical care
- Maintaining good medical practice
- Relationships with patients and communication
- Working with colleagues
- Teaching and training
- Professional behaviour and probity
- Acute clinical care (in line with GMC standards / Good Medical Practice

and at least 24 months clinical experience (not including Foundation modules) in UK based approved training posts or equivalent. Evidence of achievement of the relevant competencies would need to be demonstrated. Evidence would be from appraisal, satisfactory review (e.g. RITA-C), reports, outcomes (e.g. Level 1 competencies in medical specialties) or equivalent record of satisfactory attainment of competencies.

Medical graduates who qualified before 2005

Doctors who qualified before 2005 and received provisional registration with the General Medical Council before 1st August 2005 will need to demonstrate successful completion of the following clinical training requirements or demonstrate equivalence to them:
