

Reliance on clinical research physician experience for PMST eligibility

What counts as clinical experience? You must have achieved clinical and professional competencies in managing patients, which may include clinical trial participants, over a period of four years. You must be able to provide evidence of having managed patients in a range of acute and long-term illnesses; of close involvement on a regular basis with the management of such patients through multi-disciplinary team meetings; of managing clinical research study participants; of prescribing, administering and monitoring the effects of medicines.

Job title	Date from (mm/yy)	Date to (mm/yy)	Number of sessions per week (i.e. a typical week)	Description of the clinical procedures you performed
