THE SCIRIS GROUP:

The SCIRIS group ethos allows our agencies to establish a unique balance between independent thinking and global collaboration.

Each agency can preserve their individual culture and identity — united by our drive to achieve **intelligent solutions, inspired by science.**

WHO WE ARE

Indigo Medical is focussed on Medical and Scientific Communications and Medical Compliance Review Services.

A career in blue-chip pharma revealed the need for an agency who really do put the client first; to solve your problems instead of selling their solutions.

So, we built the agency we wanted to work with.

Established in 2009

Single-minded focus on customer delight and the highest quality of delivery

Committed to long-term partnerships with our clients.

Team of >50 based in Milton Keynes and London

OUR VALUES

Togetherness

Integrity

Authenticity

WE MAKE YOUR PROBLEM OUR PROBLEM

Everything we do is based on the principles on which we founded Indigo Medical: to be the agency who you love to work with, to know we always do what is best for you, to trust that we will always act with boldness and integrity.

**WE DON'T SELL
SOLUTIONS**

**WE SOLVE
PROBLEMS**

SO, LET'S HAVE COFFEE, SOME CAKE AND A CHAT

We know that the most rewarding conversations start with 'why'.

It's the starting point for identifying what your needs really are and to building a bespoke solution.

Leave your problem with us

Our medical knowledge is important of course, but even more so is understanding your needs

We can offer you a team you will love to work with

You won't need to hold our hand or complete a briefing form

We will resolve your problems by building a strong relationship and acting boldly with integrity and authenticity

That is the Indigo Medical way!

OUR CORE SERVICES

From our **medical writers** to our **compliance specialists**, our skills are broad but we're united by a **100% commitment** to helping you achieve **great outcomes**.
